Announcements by the Chair
Chair Bohn reported on Academic Council meetings that took place on October 3 and October 17.
- UCOP continues to undergo restructuring in response to the state audit that was conducted last year. On July 1, 2018, UCSB assumed responsibility for hosting and operating the UCEAP Program on behalf of the UC system, per an MOU between the Chancellor and the Office of the President. Additional systemwide programs, such as UCDC and UC Press, are being considered for relocation to a
UC campus. Proposals for such actions will be distributed for systemwide review prior to finalizing any agreements.

- BOARS has been charged with drafting proposed criteria for a new UC transfer admission guarantee for students who complete coursework in a UC Transfer Pathway with major preparation GPA above a certain minimum that is yet to be determined. A joint Senate-Administration Task Force was preparing to present a proposal for such a guarantee when it was announced that President Napolitano and the California Community College Chancellor had already signed an MOU related to the new systemwide guarantee.
- Efforts are ongoing to implement changes to systemwide procedures for handling disciplinary cases involving sexual violence and sexual harassment, including revision of the Presidential Policy on Sexual Violence and Sexual Harassment. The University Committee on Privilege and Tenure is working on related revisions to Bylaw 336. All proposed revisions will undergo systemwide Senate review.
- Negotiations are still ongoing with regard to journal subscriptions. UC’s contract with Elsevier expires on December 31, 2018, and the full impact of this is as yet unclear. It is anticipated that 85% of content will remain contractually the same, with new journal articles relying on inter-library loans.
- Academic Council is addressing a request to extend academic freedom rights to Librarians. While the Academic Senate is generally supportive, there are complications with the relevant union regarding assurance of adherence to corresponding responsibilities.
- UCOP is working on a multi-year budget plan with the State Legislature. It is anticipated that the State may require accelerated time to degree in exchange for increased funds. The current UC budget is highly problematic due to its provision of one-time line items, as opposed to more permanent funding.

Chair Bohn also provided local campus updates:

- UCSB has a new classroom building in the works. There are tentative plans to build large lecture halls that are better equipped for teaching.
- The Committee on Diversity and Equity has been working hard to develop a Faculty Diversity Award. Associate Vice Chancellor Maria Herrera-Sobek proposed developing an award during 2017-18. The guidelines have been completed but are pending review by the Executive Council. A proposal to establish this award is expected to be presented for approval by the Faculty Legislature at its January meeting, with the hope of soliciting nominations this year.
- The Academic Senate is still waiting to hear back from the administration regarding proposed revisions to local procedures for responding to sexual violence and sexual harassment complaints. Once the Administration comes back with a viable response to the Senate’s proposal, the Senate will pursue further review and potential approval by the Faculty Legislature.
- An Ad Hoc Committee has been formed to review various concerns about the use of ESCL Evaluations. Complaints related to bias and discrimination will be among
the issues considered.

- The campus has been reviewing options for improving childcare options for faculty, staff, and students. An advisory task force has been created with Maria Herrera-Sobek and Chair Bohn as co-chairs. The group has been looking into short term and long term reconfiguration, particularly with an eye toward providing more spaces for infants. Potential fundraising options are being explored to facilitate various types of expansion.
